Web Developer

WORK EXPERIENCE

Spotify Dashboard   03/2023 - 04/2023
Fullstack Developer

- Developed a full-stack web application using React, Express, and Spotify's API to enable users to view a visual representation of their favorite music.
- Designed and implemented responsive UI components with Styled Components, ensuring optimal user experience across multiple devices and screen sizes.
- Leveraged Express to build a RESTful API to handle server-side logic, including authentication and authorization, and integrate with Spotify's API to retrieve and display user data in real-time.

Utrgv Winds   09/2018 - 12/2022
Web Developer

- Developed a fully functional website for a non-profit organization in 4 months, increasing donations by 40%.
- Engineered web solution to save 200 hrs/year in staff time in 4 months.
- Collaborated with leadership and a designer to achieve project goals and timelines every season.
- Maintained and Updated the Organization's website, and payment tracker app

Game Night   09/2022 - 12/2022
Frontend Developer

- Streamlined the development of a web application using React, resulting in a responsive and user-friendly interface for the end user.
- Designed and implemented the front-end of the application using Tailwind CSS, resulting in a consistent and modern design language across the site.
- Ensured the application was fully responsive and optimized for use on both desktop and mobile devices, resulting in a seamless user experience across multiple platforms.
